

Dear Fratres and Sorores,

We send much Love and Light to you all during this very challenging time of the worldwide pandemic due to COVID-19. Our group work is starting up in certain regions. Please check in with your area regional coordinator for more information. We hope to open the Los Angeles Temple by June or July, but check the website ([bota.org](http://bota.org)) or look for the B.O.T.A. email notice, which will be sent out when we feel it is safe to open the Temple for Sunday Service.

In the U.S. we are observing all guidelines from the Centers for Disease Control (CDC) — such as wearing a mask, social distancing, and hand sanitizing — when reopening our group work. These procedures will be in place until either we are all vaccinated, or the pandemic has been brought under control and deemed over.

We are aware that different countries and regions have different requirements, such as masks or no masks, but please follow guidelines set in place by public health officials in your own country for the time being, to ensure that all of our members are kept as healthy as possible.

Some of our Pronaos healing ritual work will start up soon, as well as some study groups. We do offer study group and meditational work through Zoom, so check with your regional coordinator for these offerings. If you have not yet signed up for the B.O.T.A. email list, please do so now at [bota.org/members/newsletter](http://bota.org/members/newsletter) to get the latest updates in reopening in-person group work, as well as the reopening of our Sunday Service work at the Temple in Los Angeles.

Shalom in L.V.X.,

Stewards of Builders of the Adytum
